MCB 482/582
Modeling Human Disease
Spring 2018
Tuesday/Thursday: 12:30 pm – 1:45 pm
Location: Saguaro Hall 223

Description of Course
The course is designed for MCB juniors/seniors and first/second year graduate students. The material focuses on how various experimental models are used to study human diseases. Emphasis will be placed on discoveries that identify causes of, and therapies for various human diseases. Students will gain an appreciation of the challenges involved in identifying the molecular basis of human diseases and in developing therapeutics including stem cell-based strategies. Students will be required to participate in critical thinking activities throughout the course.

Instructor and Contact Information
Instructor
Daniela C Zarnescu, Ph.D.
Professor, Molecular and Cellular Biology
Office hours: LSS 548A, Wednesday, 1-2 pm, or by appointment
zarnescu@email.arizona.edu

TA
Erik Lehmkuhl, MCB
Office hours: LSS 540, Friday, 12-1 pm, or by appointment
eriklehmkuhl@email.arizona.edu

URL: http://D2L.arizona.edu

Course Format and Teaching Methods
Topics and Lecture Format:
Topics will be determined by instructor and will be available at the beginning of the semester. Lectures will consist of an introduction by instructor, research paper presentations by students, and student group discussions with in-class problem sets.

Course Objectives and Expected Learning Outcomes
By the end of this course, each student will appreciate the contributions of model organisms to our current mechanistic understanding of human diseases and the development of therapeutic strategies. Students will be able to critically read primary research papers in the topics covered throughout the course and beyond. They will also be able to design experiments, interpret data and draw conclusions based on experimental evidence. This course is aligned with the conceptual and skill outcomes expected to be acquired by MCB majors (http://assessment.arizona.edu/sci/molecular/undergrad).
Absence and Class Participation Policy
The UA’s policy concerning Class Attendance, Participation, and Administrative Drops is available at: [http://catalog.arizona.edu/policy/class-attendance-participation-and-administrative-drop](http://catalog.arizona.edu/policy/class-attendance-participation-and-administrative-drop)

The UA policy regarding absences for any sincerely held religious belief, observance or practice will be accommodated where reasonable, [http://policy.arizona.edu/human-resources/religious-accommodation-policy](http://policy.arizona.edu/human-resources/religious-accommodation-policy).

Absences pre-approved by the UA Dean of Students (or Dean Designee) will be honored. See: [https://deanofstudents.arizona.edu/absences](https://deanofstudents.arizona.edu/absences)

Participating in the course and attending lectures and other course events are vital to the learning process. As such, attendance is required at all lectures and discussion section meetings. It is recommended that students who miss class due to illness or emergency notify the instructor as soon as possible. Failure to do so may result in unexcused absences.

Makeup Policy for Students Who Register Late
Students who register after the first class meeting may make up missed assignments/quizzes. Consult with Instructor for deadline.

Course Communications
All course related communications will be conducted through email and d2l. Please use MCB482_582 in the subject line. The instructor and TA will aim to respond to student emails within 24 hrs.

Required Texts or Readings
Primary research articles (TBD by instructor) will be available in d2l or PubMed.

Assignments and Examinations: Schedule/Due Dates
- **Quizzes:** Short on-line quizzes will be assigned for each research paper. These are due 1 hour before the beginning of the lecture corresponding to the assigned research paper.
  
  25 quizzes x 5 pts = 125 pts
- **In-class problem sets:** A list of questions will be handed in at the beginning of class. Time will be allowed for group discussion of assigned questions and for submitting the answers to the questions.
  
  10 problem sets x 5 pts = 50 pts
- **Homeworks:** 3 x 25 pts = 75 pts
- **Exams:** There will be three exams consisting of questions on the topics presented in class.
  
  Exams 1 and 2: 75 pts each; Final exam: 100 pts. Total exam points: 250 pts

Final Examination or Project
The date and time of the final exam or project, along with links to the Final Exam Regulations, [https://www.registrar.arizona.edu/courses/final-examination-regulations-and-information](https://www.registrar.arizona.edu/courses/final-examination-regulations-and-information), and Final Exam Schedule, [http://www.registrar.arizona.edu/schedules/finals.htm](http://www.registrar.arizona.edu/schedules/finals.htm)

Grading Scale and Policies
Grading:
Regular grades are awarded for this course A B C D E. There will be no grade curving. Grades will be assigned as follows: A= 90-100% (450-500 pts); B = 80-89% (400-449 pts); C=65-79% (325-399 pts); D=55-64% (275-324 pts); E =<55%.

Grades will be based 50% on in-class problem sets, quizzes and homeworks and 50% on exams. Since the same skills of analyzing published scientific material are necessary in senior undergraduate students and junior graduate students, graduate-level requirements are the same as undergraduate requirements. Extra credit may be offered.

Requests for incomplete (I) or withdrawal (W) must be made in accordance with University policies, which are available at http://catalog.arizona.edu/policy/grades-and-grading-system#incomplete and http://catalog.arizona.edu/policy/grades-and-grading-system#Withdrawal respectively.

Honors Credit
Students wishing to contract this course for Honors Credit should email me to set up an appointment to discuss the terms of the contact. Information on Honors Contracts can be found at http://www.honors.arizona.edu/faculty-and-advisors/contracts.

Scheduled Topics/Activities
See class calendar in 2dl.

Classroom Behavior Policy
To foster a positive learning environment, students and instructors have a shared responsibility. We want a safe, welcoming, and inclusive environment where all of us feel comfortable with each other and where we can challenge ourselves to succeed. To that end, our focus is on the tasks at hand and not on extraneous activities (e.g., texting, chatting, reading a newspaper, making phone calls, web surfing, etc.).

Threatening Behavior Policy
The UA Threatening Behavior by Students Policy prohibits threats of physical harm to any member of the University community, including to oneself. See http://policy.arizona.edu/education-and-student-affairs/threatening-behavior-students.

Accessibility and Accommodations
Our goal in this classroom is that learning experiences be as accessible as possible. If you anticipate or experience physical or academic barriers based on disability, please let me know immediately so that we can discuss options. You are also welcome to contact the Disability Resource Center (520-621-3268) to establish reasonable accommodations. For additional information on the Disability Resource Center and reasonable accommodations, please visit http://drc.arizona.edu.

If you have reasonable accommodations, please plan to meet with me by appointment or during office hours to discuss accommodations and how my course requirements and activities may impact your ability to fully participate.

Please be aware that the accessible table and chairs in this room should remain available for students who find that standard classroom seating is not usable.

Code of Academic Integrity
Students are encouraged to share intellectual views and discuss freely the principles and applications
of course materials. However, graded work/exercises must be the product of independent effort unless otherwise instructed. Students are expected to adhere to the UA Code of Academic Integrity as described in the UA General Catalog. See: http://deanofstudents.arizona.edu/academic-integrity/students/academic-integrity.

The University Libraries have some excellent tips for avoiding plagiarism, available at http://www.library.arizona.edu/help/tutorials/plagiarism/index.html.

_Selling class notes and/or other course materials to other students or to a third party for resale is not permitted without the instructor’s express written consent._ Violations to this and other course rules are subject to the Code of Academic Integrity and may result in course sanctions. Additionally, students who use D2L or UA e-mail to sell or buy these copyrighted materials are subject to Code of Conduct Violations for misuse of student e-mail addresses. This conduct may also constitute copyright infringement.

UA Nondiscrimination and Anti-harassment Policy
The University is committed to creating and maintaining an environment free of discrimination; see http://policy.arizona.edu/human-resources/nondiscrimination-and-anti-harassment-policy

Our classroom is a place where everyone is encouraged to express well-formed opinions and their reasons for those opinions. We also want to create a tolerant and open environment where such opinions can be expressed without resorting to bullying or discrimination of others.

Additional Resources for Students
UA Academic policies and procedures are available at http://catalog.arizona.edu/policies

Student Assistance and Advocacy information is available at http://deanofstudents.arizona.edu/student-assistance/students/student-assistance

Confidentiality of Student Records

Subject to Change Statement
Information contained in the course syllabus, other than the grade and absence policy, may be subject to change with advance notice, as deemed appropriate by the instructor.
