

The Biological and Biomedical Joint Seminar Series

(Hosted by the departments of Molecular & Cellular Biology, Chemistry & Biochemistry, Cellular & Molecular Medicine, and Plant Sciences)

“Suppression of Nonsense Mutations to Treat Genetic Diseases”

David Bedwell

Professor and Chair

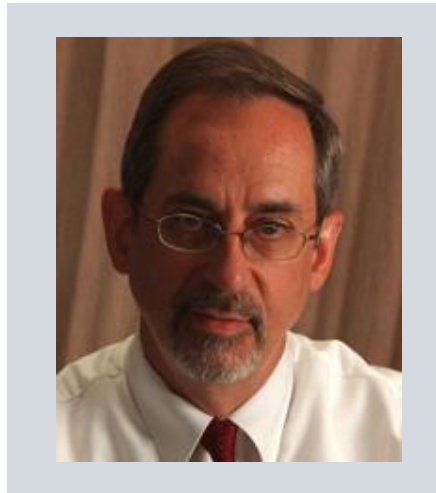

Biochemistry & Molecular Genetics

The University of Alabama at Birmingham

Tuesday October 13th, 2020

Zoom Meeting @ IIAM

Hosted By: Tim Bolger (MCB)

In this seminar, I will discuss the mechanism of translation termination, and the differences between premature and normal termination codons. I will then describe our progress toward identifying small molecules that facilitate suppression of premature termination codons that cause genetic diseases.
