The MCB Department encourages its students to engage in a senior project that serves as the culmination of the knowledge gained through the research and course work completed during students’ undergraduate career. For students in UA’s Honors College, the Senior Honors Thesis is a requirement to graduate with honors. While MCB majors are not required to do a thesis or capstone for program completion, non-honors students have the option to complete such a project by arranging a Senior Capstone experience.

The Senior Honors Thesis is a 2-semester project, which begins during a student’s penultimate semester. It is usually comprised of a semester of focused research work, followed by a semester of writing the actual thesis. Research and writing requirements are solely determined by the research mentor, however formatting guidelines may be specified by the Honors College. Submission of a Senior Honors Thesis to the Honors College is required; however, the research mentor is solely responsible for grading.

Senior Capstone is similar to the Senior Honors Thesis, with the exception that submission of the final paper is submitted to and graded by the research mentor only.

Non-Lab-Based Theses & Projects
On occasion, students have been granted permission to complete a Senior Honors Thesis or Senior Capstone project in MCB that is not lab-based. If you are interested in doing such a project, please contact Kara Dyson at kdyson@email.arizona.edu or Justin Schneider at jmschnei@email.arizona.edu.

Starting and Finishing Your Senior Honors Thesis or Senior Capstone Experience

1. First, you will have to make sure you have secured a Research Mentor, must be a faculty member.

2. Discuss an arrangement for a thesis or capstone experience with your research mentor. Determine what your project should entail and what tasks you will be required to do over the next two semesters. Also, check the Honors College’s website for information regarding your prospectus and thesis (https://www.honors.arizona.edu/capstone). You can find the MCB Guidelines here or on the MCB website.

3. At the start of your first semester you wish to receive credit for your thesis or capstone project, complete and submit the Registration Form for Senior Honors Thesis or Senior Capstone – First Semester (below).

4. At the end of your first semester, your research mentor will assign you a grade. Before your second semester of thesis/capstone begins, touch base with your research mentor. Clarify what you should be focusing on for this final semester.

5. At the start of your second semester, complete and submit the Registration Form for Senior Honors Thesis or Senior Capstone – Second Semester (below). Use the form to help you plan out your writing tasks for this semester.

6. At the end of the second semester, honors students must submit their Senior Honors Thesis to the Honors College by specific date. Senior Capstone students should submit their final project to their research mentor by the last day of classes. Research mentors will then assign grades for the senior experience.
REGISTRATION FORM FOR SENIOR HONORS THESIS OR SENIOR CAPSTONE

FIRST SEMESTER

Please complete and return this form to the MCB Advising Office in Life Sciences South, Room 248. This form is for departmental records and used to add the student to the specific research units.

Students who submit this form by the posted deadline will have the research credits added to their schedule by the MCB department. The deadline for submission for the Fall 2018 semester is Wednesday, August 29th, 2018.

Students submitting this form after the posted deadline may be required to pay late fees, additionally completing a Change of Schedule form, and/or other consequences. Please contact an MCB advisor directly if you are submitting this form after the deadline for further instruction.

Any incomplete forms will not be processed. Be sure to fill out each section and provide details.

REGISTRATION INFORMATION

Student Name: _______________________________________ Student ID #: ____________________________

Student Phone #: ______________________ Student E-mail: __________________________________________

Student Major(s): ______________________________________________________________________________

Class (check):  □ Freshman □ Sophomore □ Junior □ Senior

MCB Course Number (check):  □ 498H (Senior Honors Thesis) 3 units  □ 498 (Senior Capstone)

Number of Units: ___ (select 1-5)

[Note: The U of A and the Board of Regents require a minimum of 45 hours of course work for each unit of credit awarded; approximately 3 hours per week worked for each unit of credit in a 16-week semester]

Semester (check): □ Fall □ Spring □ Summer I □ Summer II  Year: __________

PROJECT INFORMATION & REQUIREMENTS

Faculty Member’s Name: _______________________________ Faculty Member’s Phone #: ________________________

Home Department of Faculty Member: _____________________________

Title of Project: ____________________________________________

Brief description/summary of project (must attach a one to two page typed summary or honors prospectus):

_____________________________________________________________________________

_____________________________________________________________________________

_____________________________________________________________________________

Hours per week student will spend on project: ______  Project Advisor/Student contact hours per week: ______

Date(s) for mid-semester evaluation of student performance: __________________[Note: At least one mid-semester evaluation should be done before the drop deadline]

If appropriate, name of another person who will help supervise the student: ___________________
The student will be required to attend lab meetings (check): □ Yes □ No

The student will be required to maintain a laboratory notebook (check): □ Yes □ No

Techniques the student will learn and utilize as part of this research project (list):
_____________________________________________________________________________
_____________________________________________________________________________
_____________________________________________________________________________

Tangible products the student will submit as part of this Honors Thesis or Capstone such as papers, posters, data, PowerPoint presentations, stocks, strains, etc. (list):
_____________________________________________________________________________
_____________________________________________________________________________
_____________________________________________________________________________

Additional requirements for this research project (list):
_____________________________________________________________________________
_____________________________________________________________________________
_____________________________________________________________________________

The University of Arizona would like to ensure that research experiences for undergraduates continue to be of high quality, reflecting the true nature of the directed or independent research agreed upon. In order to define the research experience for both the student and the project advisor, detailed information regarding the research project is necessary. This Approval Form should be as specific as possible so that both the project advisor and student are aware of the expectations for the project, as well as what criteria will be used to award a grade. The full listing of University of Arizona Policies for Independent Study is available in the current Academic Catalog.

**REQUIRED SIGNATURES:**

The student’s grade for this course is based upon the student’s completion and performance of the criteria listed in the Project Information & Requirements section above.

_____________________________________________________________________________
_____________________________________________________________________________
_____________________________________________________________________________

SCHEDULE OF TASKS (e.g. due dates for outline, rough draft, literature review, etc.)
The purpose of this project is to create a high quality written document based on literature research, experimental results, or both. Creating quality written documents takes time. Therefore, we ask that the student-mentor team devise a plan that sets deadlines for submission of appropriate segments by the student (e.g. methods section, results sections, figures) as deemed appropriate for the project. Similar deadlines for return of critical review should be set for the faculty mentor. Consequences for failure to comply with the established deadline should be clearly defined.
